Wesco Hardwood Boxes

Made locally from American hardwoods, Wesco signature boxes can be ordered in large, medium and small sizes. Dovetail joinery, antique hardware, and the custom-made handle are details that make these substantial boxes a distinctive gift idea.

Wesco Boots Are Without Rival

There are two factors that set Wesco boots apart from all other boots: the quality of materials we use and the details in our craftsmanship. Wesco's are made from top quality, full grain leather—this adds to the comfort and longevity of the boots. Our bootmakers work as a team, hand-to-hand, and step-by step. It is in this 155-step process that we have earned and maintained our reputation—we don't take shortcuts or do anything that could compromise the quality of our boots. See the full Wesco boot story at www.wescoboots.com.

A Wesco Boot

Industry Standard Boot

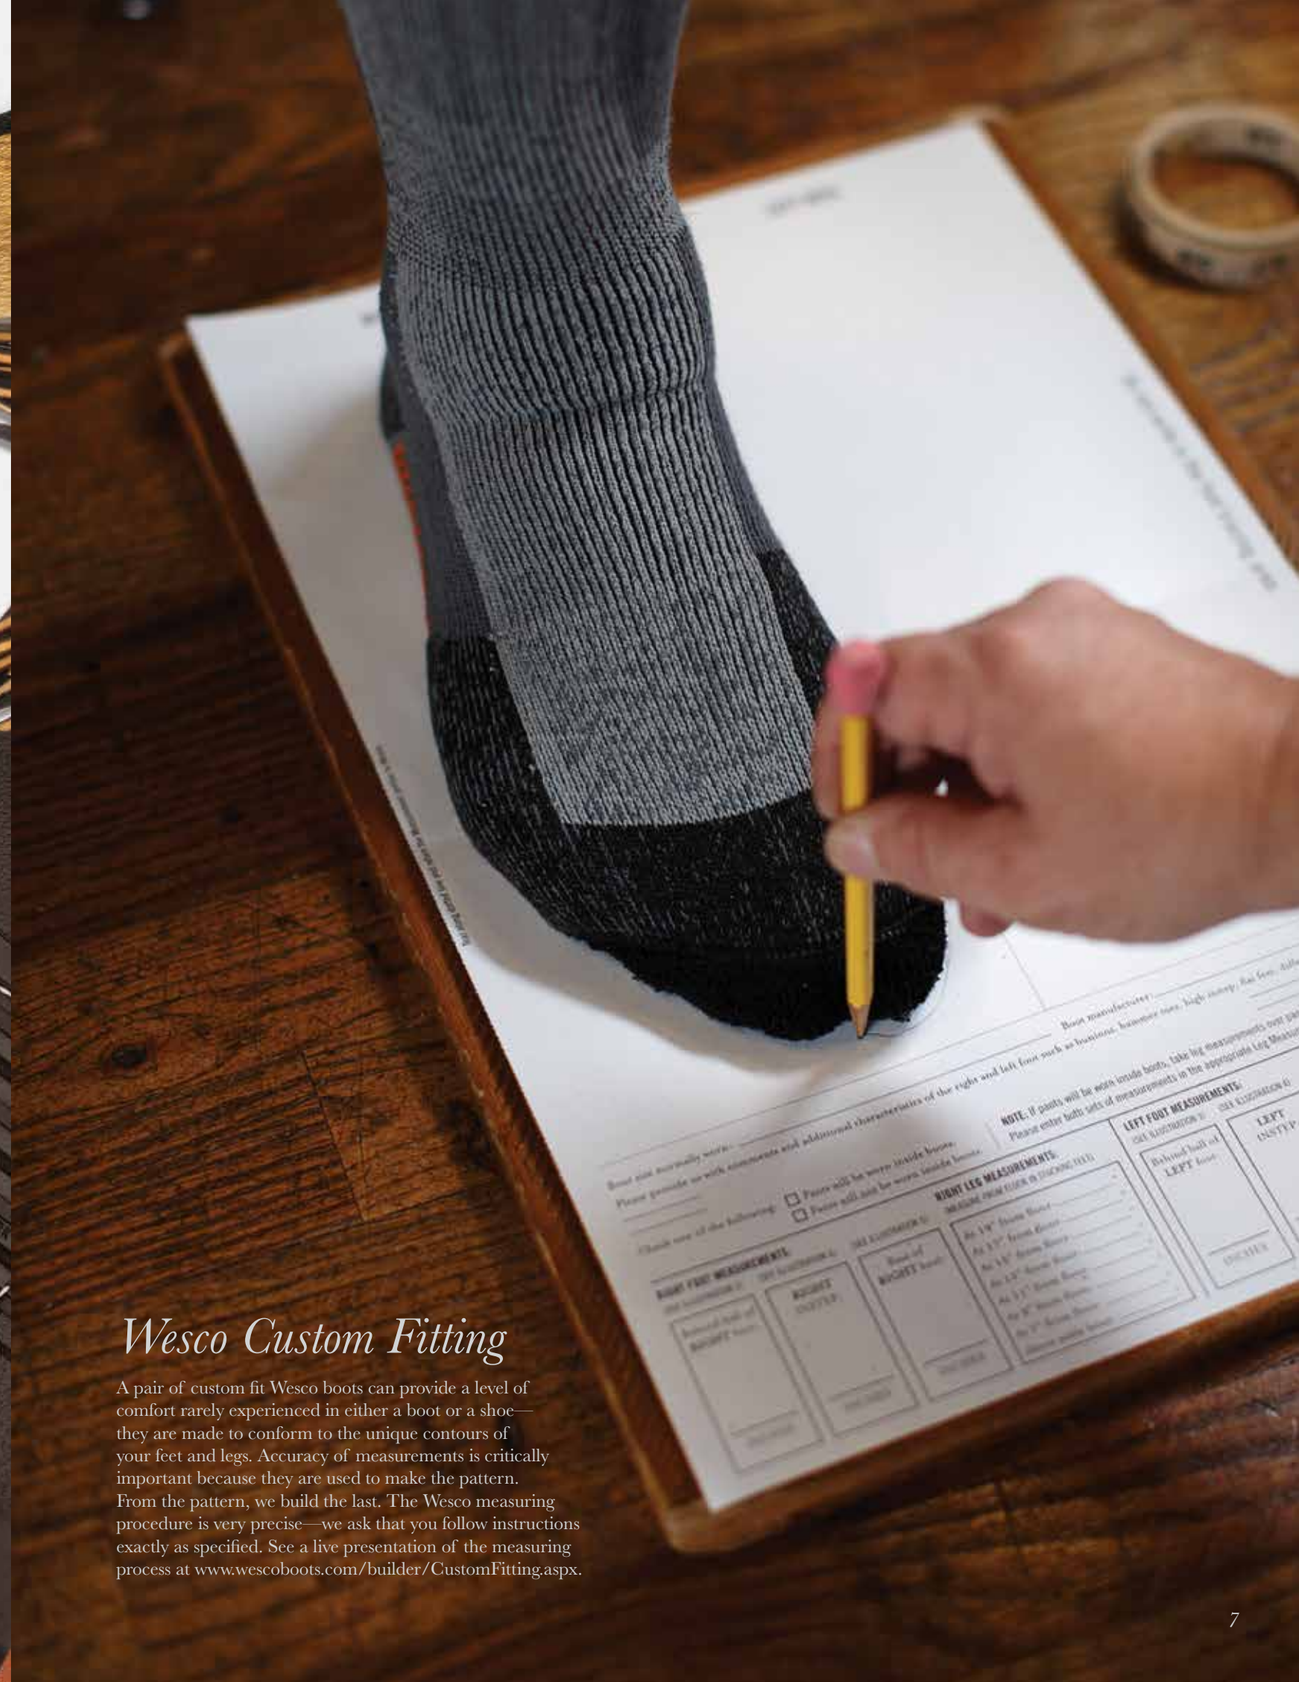
**Our VoltFoe® electrical hazard boots are made with welt construction to meet new electrical industry standards.*

The long wearing traction of VIBRAM® is simply unsurpassed—the soles and heels of Wesco boots are VIBRAM® unless otherwise specified.

VIBRAM® and the Yellow Octagonal Label are registered trademarks of Vibram S.p.A. of Italy. Vibram USA, North Brookfield, MA, is the North American manufacturer of VIBRAM® soling products under exclusive license.

The Custom Factor

The beauty of a custom boot is having complete freedom to choose every detail—leather colors and textures, stitching, heels, soles, hardware—everything, heel to toe. Many Wesco customers choose to customize their new boots from a full offering of available options. Whether made as a style preference or to enhance the way the boot functions for the wearer, it's simply a great way to put a personal spin on a handsome pair of Wesco boots. Keep in mind, not every boot can be customized and some options are only available on certain styles.



Wesco Custom Fitting

A pair of custom fit Wesco boots can provide a level of comfort rarely experienced in either a boot or a shoe—they are made to conform to the unique contours of your feet and legs. Accuracy of measurements is critically important because they are used to make the pattern. From the pattern, we build the last. The Wesco measuring procedure is very precise—we ask that you follow instructions exactly as specified. See a live presentation of the measuring process at www.wescoboots.com/builder/CustomFitting.aspx.

JH Classics

JH Classics were named in appreciation of John Henry Shoemaker, the man who set the standard for all Wesco boots. Everything that comprises the integrity of Wesco boots is built right into this oxford-style shoe.

Custom Only

Romeos

A Classic makes its return to the Wesco lineup. Constructed with the high quality materials you've come to expect, the Romeo offers the comfort and convenience found only in a slip on shoe. With almost 100 years of shoe making experience behind us, look for the Romeo to become one of your favorites.

Custom & Stock

Jobmaster®

Without question, the Wesco Jobmaster is our most versatile boot. While it offers industrial strength protection on the job, just as many customers have chosen the Jobmaster as a favorite for everyday wear. It's comfortable, durable, and can be customized with more options than any of our other lace-up boots.

Custom & Stock

Boss

Motorcycle enthusiasts have always shown a preference for the handsome Wesco Boss but it gets as much mileage from those who just like the solid comfort and style. It can be customized in any number of ways to give it your own distinctive look.

Custom & Stock

Packer

The Wesco Packer is not only an outstanding outdoor boot, it's a great riding boot. Full-leather stitch-down construction delivers comfort, long wearing Vibram® soles and heels provide traction, and paddock styling adds the Western flair. With the under slung heel and spur ledge, our Wesco Packer is saddle friendly. An extra quarter inch in heel height gives you added stature.

Custom Only

Morrison®

Classic lines give the Wesco Morrison a look that can be worn just about anywhere. So transitional, it makes a superb choice for those who won't wear anything other than their Wesco boots. The name harkens back to our company's very first location on Morrison Street in downtown Portland, Oregon.

Custom Only

Harness

The Wesco Harness is a timeless style with a solid attitude. This classic is a rugged performer that wears well for a full range of outdoor pursuits anytime, any place. The Harness is definitely a signature look.

Custom Only

Motorcycle Patrol

Police departments around the country have made the Wesco Motorcycle Patrol standard issue for their law enforcement officials. Born to protect and defend, many will recognize these boots from the vantage point of a rearview mirror. Those who require on-the-job comfort and performance will appreciate the care that has been taken to deliver on both counts.

Custom Only

VoltFoe®

Linemen, arborists, utility workers, electricians or anyone who works in close proximity to power lines will understand the extreme value of these electrical hazard climbing boots. No other boot in the category offers this level of protection. Everything about them spells safety: full-leather welt construction, composite toe, and compliance with rigorous standards for F2413-2011 MI/75 C75 EH.

Custom & Stock

Highliner®

Recognized as the superior climbing boot since its introduction in 1938, our Highliner is designed and constructed specifically for power, telephone, cable utility workers and arborists. Because comfort is integral to safety and quality craftsmanship is critical to protection, this boot has extra arch support, heavy-duty steel shanks, spur-shielding heel breastplates and leather side flaps.

Custom & Stock

Timber

Its origins are steeped in the history of Oregon loggers and today, after almost a hundred years, the Wesco Timber maintains its status as a logging boot without rival. Superior safety features and extreme durability provide secure comfort to those working with heavy equipment on steep terrain. We leave it to you to choose between patented, riveted calks or an exclusive replacement calk system.

Custom & Stock

Firestormer®

Nothing has been spared in the construction of this boot—it is built to deliver the highest level of protective comfort in the heat of fire. Handcrafted from durable 7 oz full grain leather, the Wesco Firestormer has fire-resisting Vibram® 100F lug soles to steady footing on rugged terrain, lightweight black no-burn upper stitching, heavy black Kevlar® upper and sole stitching and black leather laces.

Raptor Malt

Slip and oil resistant, good traction, long wearing, non-marking, cushioned wedge sole

Boot Rebuilding

Well-worn Wesco's* can be brought back to life for substantially less than a new pair, adding significant value to your boot investment. Once we receive the boots, we give them a thorough inspection and the process begins. We replace the heels, outsoles, midsoles, insoles, shanks, counters, vamps, laces, false tongues, and rotate the eyelets. Because the boots are re-lasted during the rebuild process, we can resize or make minor alterations to accommodate any changes in your feet. See the rebuilding process at www.wescoboots.com/builder/BootRebuild.aspx.

**We only rebuild Wesco boots. Occasionally, we get a pair of boots that are simply past the point of rebuilding.*

Due to the ASTM EH standards our VoltFoe boots must meet, we are unable to rebuild or repair the boots under this standard. VoltFoe boots sent in for rebuilding can only be rebuilt to a Highliner or Jobmaster style without the ASTM EH standard.

Due to the construction of the JH Classics and Romeo, they are limited to outsole replacement only

Explore www.wescoboots.com

Our Wesco website offers a wealth of information about our boots, our company, and a good idea of what makes Wesco boots such a great investment. A few things we'd like to point out:

- ***The Wesco Story:*** A full introduction—sit back and enjoy the presentation.
- ***Wesco Custom Boot Builder:*** Check out the "demo build" feature that allows you to go back and forth with colors and options until you determine exactly how you want your Wesco's to be made. Once you've worked out the details, go to the Wesco Custom Boot Builder, identify your final choices and place your order.
- ***Custom Fit Boot Measuring Process:*** Capturing accurate foot and leg measurements is so much easier if you can actually watch the process—see a live demonstration.
- ***Boot Rebuilding Process:*** Before and after—see worn Wesco boots when they arrive and the steps we take to give the boots a fresh start.

Wesco Showroom

Visit us in Scappoose and you'll get the full Wesco experience. See the boots, try them on, and if you decide to order custom fit boots, get your measurements taken. Give us a quick call and let us know when you plan to come out. Factory tours are available by appointment. Please contact us at least 2 weeks prior to arrange a tour time.

We Stand Behind Our Product

Each pair of boots is carefully inspected before leaving the factory. Should you experience a problem with the boots (within 90 days from the date of delivery of the boots to the original purchaser) please return as follows:

1. Email warranty@wescoboots.com or call our warranty department at ext. 230 with any questions.
2. Box and return boots within the 90-day warranty period.
3. Write a note specifically explaining the problem and enclose in the box with the boots. Please include your name, phone number, full mailing address, and email address in your note.
4. Enclose a copy of the packing slip or sales receipt as proof of purchase.
5. If you purchased your boots from a Wesco dealer please provide the name of the dealer, copy of your receipt and the purchase date.
6. If sending via USPS: West Coast Shoe Company, PO Box 607, Scappoose, Oregon 97056-0607
   If sending via UPS/FedEx: West Coast Shoe Company, 52828 NW Shoe Factory Ln., Scappoose, Oregon 97056

Our Limited Warranty

- This warranty is made to the original purchaser of each item of new boots from West Coast Shoe Company.
- West Coast Shoe Company warrants that boots sold are merchantable and free of defects in workmanship and materials at the time of shipment from the company's factory.
- West Coast Shoe Company will repair, or at its option, replace, any boots which under normal use fail to conform to this warranty.
- West Coast Shoe Company will repair or replace boot or boots without charge for materials or service, provided that the defective boot or boots are returned to the company's factory, postage paid, within 90 days from the date of delivery of the boots to the original purchaser.
- West Coast Shoe Company shall not be liable for any damages or loss beyond replacement, repair, or refund of the purchase price.
- West Coast Shoe Company's liability shall be limited exclusively to repairing or replacing the boots under the conditions as aforesaid, and in no event will the company be liable for consequential damages, including but not limited to economic losses or injuries sustained while wearing West Coast Shoe Company boots.
